

PARTNER GUIDEBOOK

Experiential Learning is where theory meets action. In other words, learning

NBCC learners are prepared for success.
Every student will have the opportunity to
learn through meaningful experiences that
are intentional, formal, and reflective while
connecting the classroom to the job
market.

To create a firm foundation of experiential learning at NBCC, the unit performs
exercise to determine their customers and support for each group. The EL unit
support , , , and the .

It is an excellent way to meet your organization's short- and long-term goals.
Students bring an infusion of fresh perspective and new skills to the workplace,
motivate your current workforce.

Partners have a chance to participate in the workforce's development through
experiential learning programs.

You have access to a pool of motivated, skilled, and productive employees.

In-class or virtual presentations are a way to connect with the students early and highlight positions in your company. If you would like to visit an NBCC campus and provide students with an overview of your organization/company, it can be organized.

Industry tours can be arranged.

To arrange presentations or tours, please send an email to experiential@nbcc.ca

Partners may receive funding to support hiring an NBCC student(s) and may need confirmation that the student is enrolled full-time in their program of study. If you require this confirmation, please send an email to experiential@nbcc.ca

In rare cases, an employer may wish to end a student's Co-op contract early due to performance or other circumstances. If this is the case, please contact the applicable faculty school member immediately to determine the best course of action.

For further information, please contact our Experiential Learning office.
